

## ADDICTION MEDICINE FELLOWSHIP

Class of 2025

---

**Randall Beaupre, MD**

**Fellowship:** *Addiction Medicine Fellowship*

**Residency:** *Maricopa Medical Center*

**Medical School:** *University of Louisville*

I am a native of Arizona and graduated a proud Sun Devil from Arizona State University with a degree in Construction Management. After working in the construction industry for a while, I decided to make a radical career shift and pursue medicine. I completed a post-baccalaureate program and then medical school at the University of Louisville in Kentucky. Residency brought us back home and I completed my training in Emergency Medicine at Maricopa Medical Center (now Valleywise Health) in Phoenix. I have practiced the last couple of years post-residency in a small, rural emergency department on the Gila River Indian Reservation. The vast exposure to clinical settings along with HonorHealth's affiliation with Community Bridges was a big draw to the program. My clinical interests include acute and long-term recovery from substance use as well as exploring the ever-changing and exciting new therapeutic modalities in the field of Addiction Medicine. Outside of medicine I enjoy time with my wife and three boys. The perfect day consists of spending time on the golf course or at a local lake followed by indulging in some street tacos.

**Diane E. Hindman, MD PharmD BScPhm FAAP FACMT**

**Fellowship:** *Addiction Medicine Fellowship*

**Residency:** *Rainbow Babies and Childrens Hospital*

**Medical School:** *Trinity School of Medicine*

Dr. Hindman is a Board-Certified Pediatrician and Medical Toxicologist, and Registered Pharmacist. She is a Clinical Assistant Professor at the University of Arizona College of Medicine Phoenix and at the University of Arizona College of Pharmacy Tucson. She works as an Attending Physician in the Emergency Department (ED) at Phoenix Children's, and Medical Toxicologist at the University of Arizona Poison and Drug Information Center in Tucson. She completed her medical degree at Trinity School of Medicine, pediatric residency at Rainbow Babies and Children's Hospital, and medical toxicology fellowship at Emory University and the CDC. She received her pharmacy degrees from the University of Toronto and University of Colorado. She has also completed certification in clinical translational research at the University of Arizona College of Public Health and is delighted to be starting her Addiction Medicine Fellowship at HonorHealth. Factors that motivated her to choose this program include her son's positive feedback about

the organization, the program is close to home, and the fellowship offers exciting aspects including adolescent and healthcare provider addiction management experience.

Dr. Hindman wears many hats in addition to her formal role as a physician. She serves on committees and has various other involvement with the American Academy of Pediatrics (AAP), American College of Medical Toxicology (ACMT), American Association for Emergency Psychiatry (AAEP), American Academy of Clinical Toxicology (AACT), and America's Poison Centers (APC). She is also actively involved in numerous research and QI projects involving medication safety, appropriate prescribing, penicillin allergy delabeling, pediatric mental health disorders and boarding in the ED, and adolescent substance use. Dr. Hindman is also a provider and educator in AHLS, current Assistant Editor for the AHLS Provider Manual 6<sup>th</sup> edition and was involved in prior updates for the AHLS Radiological Incidents and Terrorism course. In addition to addiction medicine and toxicologic exposures in adolescents and children, she is interested in countermeasures for all categories of terrorism and emerging threats. A prior marathon runner and Ironman triathlete, she tries to stay active and enjoys forensic mysteries when time permits.

---

## Class of 2024

**Mona Ghavami, MD**

**Residency:** Metropolitan Hospital, NYC

I was born in Tehran, Iran, and graduated from Azad University of Medical Sciences. I moved to the United States to pursue continuing education and completed Internal Medicine Residency at Metropolitan Hospital in New York City. My clinical interest is applying the latest evidence-based research in treating Alcohol and Opioid Use Disorders. I believe deeply in encouraging my patients to adopt a healthy lifestyle while educating how substances can affect the human body and mind. I hope to contribute to society and the greater public by providing excellent care with the utmost compassion.

I enjoy biking, swimming, traveling, and spending time with my family and friends. The variety of community clinics and inpatient settings at Honor Health appealed to me. I always wanted to live in the valley of the sun and enjoy the many outdoor activities.

**Lisa Emmans, MD**

**Residency:** Denver Health Medical Center, CO
