

FACULTY BIOS

HonorHealth/Northern Arizona University
Neurological Physical Therapy Residency Program

Kathleen Ganley, PT, PhD

Dr. Ganley is the Director of Northern Arizona University's Program in Physical Therapy at the Phoenix Biomedical Campus and the Coordinator of the HonorHealth/Northern Arizona University Residency in Neurologic Physical Therapy. Dr. Ganley earned a physical therapy degree from Northern Arizona University in 1988 and a PhD in Biokinesiology from the University of Southern California in 2002. She has over 25 years of clinical experience primarily in the areas of adult and pediatric neurologic rehabilitation and more than 20 publications in peer-reviewed professional journals. Dr. Ganley is an active member of the American Physical Therapy Association.

Tanya Herman Lee, PT, DPT, NCS

Dr. Lee graduated from Duke University with her Doctorate of Physical Therapy Degree in 2010. She then completed the Scottsdale Healthcare/NAU Neurologic Residency Program in 2013 and is currently the Director of the HonorHealth/NAU Neurological Residency. She is adjunct mentor in the residency program at outpatient at Shea. Tanya is a board certified Neurologic Specialist, and has taken a course at Emory University where she became certified in vestibular rehab. Tanya has also been certified in LSVT BIG and is very passionate about post rehab wellness for people with Parkinson's. She enjoys working with a wide variety of neurologic diagnosis including vestibular/balance, post CVA, Multiple Sclerosis, and Parkinson's disease. Outside the clinic she enjoys coaching youth basketball, volunteering for Baehr Challenge to benefit Parkinson's and most of all traveling and spending time with her husband Griffin and their sons Grayson and Bryce. She is an active member of the American Physical Therapy Association.

Kim Kulovitz Gatewood, PT, DPT, NCS

Dr. Gatewood is an Associate Clinical Professor at Northern Arizona University's Program in Physical Therapy and a therapist at HonorHealth John C. Lincoln Medical Center. She also serves as an adjunct faculty member at Gateway Community College and Midwestern University and is an active member of the American Physical Therapy Association. Dr. Gatewood earned a physical therapy degree from Marquette University in 1981 and a Clinical Doctorate in Physical Therapy from Northern Arizona University in 2008. She is a board certified specialist in Neurologic Physical Therapy and has over 30 years of clinical experience, primarily in the areas of adult neurologic rehabilitation and acute care. Special interests include serial casting, the treatment of medically complex patients, and mindful rehabilitation of individuals with severe TBI and SCI. Dr. Gatewood has a rich history of teaching and mentoring therapists, neurologic residents, and students. She has instructed in educational workshops throughout the United States and internationally.

Jamie Nesbit, PT, DPT, NCS, GCS

Dr. Nesbit received her Bachelor's Degree in Rehabilitative Studies from Stetson University in Deland, Florida on a women's basketball scholarship. She then graduated from Washington University in St. Louis, Missouri in 2011 with a Doctorate in Physical Therapy. Her clinical passion has always been geared toward working within a neurological population, and she has been following that passion with her career at HonorHealth Osborn Medical Center. She has experience in the acute, sub-acute and outpatient settings and currently works as an outpatient neurologic physical therapist. She became a Board Certified Neurologic Specialist in 2014 and a Board Certified Geriatric Specialist in 2015. Along with these board certifications, she is trained in vestibular rehabilitation, use of Bioness L300 and H200, a certified LSVT BIG and PWR! Therapist, and a member of the American Physical Therapy Association, Academy of Neurology section and Academy of Geriatrics section. In addition to working as a clinician at HonorHealth, Jamie is a Lite Gait trainer for Mobility Research and adjunct faculty at Midwestern University and Franklin Pierce University. Outside of her professional career, she enjoys hiking, exercising, and travelling and takes extra-curricular studies in nutrition that she enjoys carrying over into wellness programs with her patients.

Megan Foster, PT, DPT, NCS

Dr. Foster graduated from Des Moines University in Iowa in 2011 with her Doctorate in Physical Therapy. She has been practicing at HonorHealth in acute care and acute rehab since 2011. Megan achieved her board certification as a Neurologic Clinical Specialist in 2013. Megan has a clinical interest in all neurological patients, but especially those with strokes and spinal cord injuries. Megan has helped to implement standardized testing for both CVA and SCI patient populations within the hospital system as well as initiated an early mobilization post tPA in patients after acute ischemic stroke. She has achieved certification in the Modified Rankin Scale, INCSCI exam (ASIA), and NIH Stroke Scale among others. Megan enjoys hiking with her husband and dog and playing soccer and volleyball.

Candice Sinsabaugh, PT, DPT

Dr. Sinsabaugh graduated from A.T. Still University with her Doctor of Physical Therapy degree in 2010. She then started working for HonorHealth in all areas before being assigned to Acute Rehab setting. Candice enjoys working with neurological patients including those with CVA and TBI. Candice is certified LSVT BIG and has taken many courses on NDT. She continuously strives to grow as a clinician by taking students and completing continuing education courses that are neurologically based. She enjoys traveling, outdoors activity and spending time with her husband Adam and two children Riley and Landon.

Michelle Cornwell, PT

Ms. Cornwell graduated from Northern Arizona University in 1991 with a BS in Exercise Science. She earned her Master's degree in Physical Therapy from Northern Arizona University in 1994. Her credentials include Advanced Certification of Competency in Vestibular Rehabilitation. Michelle's clinical expertise involves treating patients suffering from neurological and vestibular disorders. Treatment focus includes but is not limited to unilateral/bilateral vestibular loss, Benign Paroxysmal Positional Vertigo (BPPV), vestibular migraine, post-concussive syndrome and general imbalance. Michelle enjoys regular exercising, cake decorating and spending time with her husband and two boys.
