

# HonorHealth Scottsdale Annual Skin Cancer Screening Event

Screenings Provided: 205

The American Academy of Dermatology (AAD) states that with early detection and proper treatment, skin cancer is highly curable. **According to the AAD, one out of every five people will develop skin cancer in his or her lifetime. As a host site for free community skin cancer screenings, we can make a difference, one person at a time!** The screening was held at the Virginia G. Piper Cancer Center at Scottsdale Healthcare on Saturday, May 02, 2015, 8:30 a.m. to 11:00 a.m.

Screenings were performed by: dermatologists, doctors, physician assistants and nurse practitioners. The Virginia G. Piper Cancer Center staff, SLN Nurses, and Scottsdale Healthcare volunteers helped to make the skin cancer screening to run smoothly.

## Cancer Screening Data:

# of Participants	# Pre-Skin Cancer (AK, Dysplastic) % Pre-Skin Cancer (Pre or malignant)	# Basal-cell Carcinoma	# Melanoma	# Squamous cell carcinoma	# recommended for Biopsy (Basal, Melanoma, Squamous, AK, SK, moles, other)	% of Biopsies requested by total number of participants
205	56	10	0	5	37	18%
