**Scottsdale, Ariz. – (May 7, 2015)** HonorHealth Deer Valley Medical Center, HonorHealth John C. Lincoln Medical Center and HonorHealth Scottsdale Osborn Medical Center has received the Get With The Guidelines®-Stroke Gold-Plus Quality Achievement Award for implementing specific quality improvement measures outlined by the American Heart Association/American Stroke Association for the treatment of stroke patients.

Get With The Guidelines®-Stroke Gold-Plus Quality helps hospital teams provide the most up-to-date, research-based guidelines with the goal of speeding recovery and reducing death and disability for stroke patients. HonorHealth Deer Valley Medical Center, HonorHealth John C. Lincoln Medical Center and HonorHealth Scottsdale Osborn Medical Center earned the award by meeting specific quality achievement measures for the diagnosis and treatment of stroke patients at a set level for a designated period. These measures include aggressive use of medications and risk-reduction therapies aimed at reducing death and disability and improving the lives of stroke patients.

HonorHealth Deer Valley Medical Center, HonorHealth John C. Lincoln Medical Center and HonorHealth Scottsdale Osborn Medical Center also received the association's Target: Stroke Honor Roll for meeting stroke quality measures that reduce the time between hospital arrival and treatment with the clot-buster tPA, the only drug approved by the U.S. Food and Drug Administration to treat ischemic stroke. People who suffer a stroke who receive the drug within three hours of the onset of symptoms may recover quicker and are less likely to suffer severe disability.

"Our health care providers are dedicated to improving the quality of stroke care," said Tom Sadvary, CEO, HonorHealth. "Patients can trust that they are receiving the highest quality care based on internationally-respected clinical guidelines.

According to the American Heart Association/American Stroke Association, stroke is the number four cause of death and a leading cause of adult disability in the United States. On average, someone suffers a stroke every 40 seconds; someone dies of a stroke every four minutes; and 795,000 people suffer a new or recurrent stroke each year.

**About HonorHealth:**

HonorHealth was formed by a merger between Scottsdale Healthcare and John C. Lincoln Health Network. HonorHealth's mission is to improve the health and well-being of those we serve. The healthcare system encompasses:
