Cancer Care

Welcome to HonorHealth Cancer Care. Our valley-wide locations put you, the patient, at the center of everything we do. Our team of specialists are committed to providing you with outstanding coordinated care.

Prior to your visit

Before your appointment, we ask that you print and fill out the attached New Patient Packet. We realize that you may have already provided similar information to other HonorHealth providers in the past and understand that this may seem redundant. However, with health histories and circumstances changing continually, it is important for our team to have your most recent and updated information to provide you with the finest personalized care.

MyChart App

To simplify your healthcare, we strongly encourage you to download or sign up for the MyChart App. MyChart is a free, easy-to-use, secure website that gives you access to your health information quickly and conveniently from your computer, smartphone or tablet. Visit HonorHealth.com/mychart to learn more about the advantages of MyChart and to get instructions on how to sign up.

If you have questions, please do not hesitate to talk to your physician. You may also call 855-485-HOPE (4673) for additional information and support.

It is an honor to serve you during this time.

Hospital Outpatient Clinic Based Locations

When you receive services in one of our hospital outpatient clinic based locations, you will receive two separate charges from HonorHealth. Your billing statement will show clinic outpatient visit or a telehealth visit charge under the **Facility Services** section of your statement. You will also receive a separate charge for the **Professional Services,** which will show with the performing physician's or clinical professional's name. The statement of charges will show services in two categories as noted below:

- **Facility Services:** Covers the overhead for the facility including nursing, registration, equipment, supplies, building, etc. The clinic outpatient or telehealth visit charge will be shown here.

- **Physician and Clinical Professionals:** Covers your doctor's services, treatment or procedures performed, and does not include any costs for overhead.

The facility charge is the result of HonorHealth's physician offices and outpatient clinics being classified as hospital outpatient departments, also called provider-based facilities.

Provider-based billing applies to all patients, regardless of the type of insurance you have. The way your insurance covers these charges may be different, based on whether you have insurance through your employer, other insurance company or if you are covered by Medicare.

How this affects you if you are covered by your employer health plan or other insurance (not Medicare): The way your insurance company handles these charges will vary based on your health plan. Some insurance companies may apply these charges to your annual deductible, coinsurance or co-pays. To find out what will be covered, contact your insurance company. If you have additional questions, please contact one of our financial counselors.

How this affects you if you have Medicare:

- The **Facility Services** charge(s) will be billed to Medicare Part A.
- The **Physician And Clinical Professionals** charge will be billed to Medicare Part B

You will receive two Medicare Summary Notices (MSNs, one for Part A and one for Part B:

- If you have secondary insurance, we will submit any balance to that insurance company.
- If your secondary insurance does not cover the remaining balance or if you do not have secondary insurance, the balance will be billed to you.

Infusion Financial Counselor introduction

At HonorHealth, the last thing we want is for your care to be frustrating. One of the ways we go beyond in caring for you is by meeting with you before you begin treatment. We'll discuss costs and options that can help alleviate any unexpected financial burden of your treatment. Our financial counselors will provide you with financial information regarding your insurance benefits (including details about your deductible status and out of pocket liability), as well as our payment policies. Determining your financial needs is not a one-time exercise –our financial counselors will meet with you and your family regularly to update any changes in your insurance coverage and reevaluate your financial resources throughout your treatment plan. Since you'll be receiving infusion treatments or injections in one of our clinics, here's how our team will support you:

- Once treatment is prescribed, our authorization team will verify the authorization requirements for your insurance. Our team members will initiate the authorization process to ensure your treatment can start in a timely manner.
- Our financial counselors will reach out to you before you start treatment to explain your insurance coverage, review your benefits and discuss your estimated financial responsibility based on information provided by your insurance.
- Once your authorization has been received, our team will continue to follow your treatment to ensure that any ongoing authorization needs are addressed.
- Our financial counselors will also review any possible financial assistance options from the manufacturer (if applicable), third-party foundations and any programs available through HonorHealth.
- If your physician orders a treatment that your insurance does not authorize, we'll work with the pharmaceutical company to apply for any applicable assistance program for you. Our counselors will work with you to complete the financial assistance forms and submit them for you.

Financial counselors are available from 7:30 a.m. to 3:30 p.m., Monday-Friday to answer your questions and discuss your treatment plan.

Thank you for choosing HonorHealth. We look forward to going the extra mile for you.
